Contents

Preface vii

Organizing Committee, List of participants viii

Diatoms, lake acidification and the Surface Water Acidification Programme (SWAP): a review
by R.W. Battarbee 1

Lipid storage in *Diaptomus kenai* (Copepoda; Calanoida): effects of inter- and intraspecific variation in food quality
by N.M. Butler 9

Nitrogen in the Pyrenean lakes (Spain)
by J. Catalan, L. Camarero, E. Garcia, E. Ballesteros & M. Felip 17

Plankton dynamics in a high mountain lake (Las Yeguas, Sierra Nevada, Spain). Indirect evidence of ciliates as food source for zooplankton
by L. Cruz-Pizarro, I. Reche & P. Carillo 29

Acidification of lakes in Šumava (Bohemia) and in the High Tatra Mountains (Slovakia)
by J. Fott, M. Pražaková, E. Stuchlík & Z. Stuchlíková 37

Chemical characteristics of lakes in the High Tatra Mountains, Slovakia
by J. Kopáček & E. Stuchlík 49

Paleolimnological records of carotenoids and carbonaceous particles in sediments of some lakes in Southern Alps
by A. Lami, A. Marchetto, P. Guillizzoni, A. Giorgis & J. Masaferro 57

Algal flora of lakes in the High Tatra Mountains (Slovakia)
by J. Lukavský 65

Acidification and weathering processes in high mountain lakes in Southern Alps
by A. Marchetto, A. Barbieri, R. Mosello & G.A. Tartari 75

Reconstruction of pH by chrysophycean scales in some lakes of the Southern Alps
by A. Marchetto & A. Lami 83

A survey on water chemistry and plankton in high mountain lakes in northern Swedish Lapland
by A. Nauwerck 91

Cyclops scutifer SARS in Lake Latnjajaure, Swedish Lapland
by A. Nauwerck 101

Comparison of diatom communities in remote high-mountain lakes using index B and cluster analysis
by P. Niederhauser & F. Schanz 115

Zooplankton decline in the Černé Lake (Šumava Mountains, Bohemia) as reflected in the stratification of cladoceran remains in the sediment
by M. Pražáková & J. Fott 121

Characterization of carbonaceous particles from lake sediments
by N. Rose 127

Autotrophic picoplankton community dynamics in a pre-alpine lake in British Columbia, Canada
by J.G. Stockner & K.S. Shortreed 133

Chemical properties of an acidified humic headwater lake with respect to reducing acidic depositions and expected climate change
by H. Thies 143
Limnological research on northern Apennine lakes (Italy) in relation to eutrophication and acidification risk
by P. Viaroli, I. Ferrari, G. Paris, G. Rossetti & P. Menozzi 155
The effect of anthropogenic acidification on the hydrofauna of the lakes of the West Tatra Mountains (Slovakia)
by M. Vranovský, I. Krno, F. Šporka & J. Tomajka 163
Chlorophyll–phosphorus relationship in acidified lakes of the High Tatra Mountains (Slovakia)
by V. Vyhnálek, J. Fott & J. Kopáček 171
Acidification of small mountain lakes in the High Tatra Mountains, Poland
by K. Wojtan & J. Galas 179
